## Wardrobe Wise Closet Consultation

First impressions are as important as ever. With cameras as common as telephones, statements without one word being spoken, are not only made but are quickly 'shared'. Women make a variety of statements as they change garments more than once per day, depending on the task at hand.

We need stretchy ones without details to bend and move with children, easy cleaning clothes for hobbies, water-repellent ones for gardening or inclement weather and not to forget -- some for sports, travel, entertaining, lounging and 'domestic management'. For the more flamboyant gender, it helps to having the right tools for the right job and closet management can save time and worry..

*Wardrobe Wise* combines an artist eye for detail and design to organize one's current wardrobe to maximum efficiency for one's lifestyle.

After the consultation one has a customized, visual record of do's and don'ts so one can shop smart, be aware of the best outlets and websites; match the right kind of garments for a multifaceted life. Gain time by eliminating insecurity and time-consuming try-ons. Save money by being able to select with confidence only wardrobe items that work for you 24/7, wherever you are.

**Dates: Appointments Mon-Friday**

**DON'T hide these  
color gems in a  
drawer**

**DO display them to  
inspire their use!**

### You'll learn :

- how to spot a quality scarf
- how design awareness can boost your fashion sense up a notch
- How, when and where to use a power statement
- how to care for special materials and fancy name brand scarves

**...and see easy  
demonstrations**

Above: CD trees provide a wonderful display for scarves, with larger openings in the bottom for shawls and oversized pareos.

## What **K**not to Wear Accessorizing Class

Have you ever told someone, "I'm just not a scarf person", while secretly nominating yourself for the Guinness Book for number of attempts to tie one—(or just make one stay in place?). This fashionista class is not to be missed. Faces your challenge with smiles, creativity and fun!

With many demos and hands on practice, learn how to select a quality scarf, whether it be square, oblong, carré, Fortuny pleated, wrapped in Pashmina, challis, pareos, sari's, on top, under and around hats, converted into a blouse, skirt, evening jacket, paintings, table settings, and jewelry. Find out what constitutes the posh Haute Couture look of Paris that make the continental ladies look *tres chic*. Increase your design sense with the addition of two simple words that will let you perfectly coordinate garments with taste--forever.

Dress casual and plan not to sit still. Models are 'gently nudged or volunteered to be the mannequin-of-the-moment from the audience during lively demonstrations.

You'll see scarves added to the figure or particular garment for many occasions and know just the right one to pack for future travels. Surely one will be perfect for you!

**Date: Minimum 5 participants\***

**Time: 10-12 AM or 12:30-2:30 PM**
