

Elan IT is looking for “Multilingual Service Desk Operators”

Our client based in the region of Antwerp is a worldwide ICT service provider with an excellent reputation. As their activities grow constantly, they are looking for IT juniors who are pursuing a great career in IT.

Job description:

You will start your career with a one month training course to teach you the systems of our international customers. After that you will help our customer with their hardware and software issues.

When necessary you will escalate these problems to a higher level.

As an IT professional, you will promote the solution to the customer.

You will work in a young, dynamic and international environment.

You speak very good English and one of the following languages:

Danish, Finnish, Swedish or Norwegian

You are willing to work in a shifts system.

What we offer:

A competitive salary with very attractive extra-legal benefits.

A permanent contract with a career plan and growing opportunities.
